

## Musical Activity

Song | Download: *I Can Make a Straight Line*

CD Title: *Math, Music and Motion*

### Lyrics

*Focus on different properties of lines and pathways whether traced on paper, drawn on the ground with chalk, molded out of clay or wiki-stick, taped on the floor, laid on the floor using a lace/yarn/short rope, or drawn on a white board. Follow the curves and angles using your body in motion, or interpret the way the lines are shaped using movement. Paint imaginary lines in the air using a scarf. Work independently or as a group.*

I can make a STRAIGHT LINE,  
straight line, straight line.  
Shooting like an arrow, end to end.  
I can make a straight line,  
straight line, straight line.  
I can make a straight line pencil thin.  
I can make a straight line pencil thin.

I can make a CIRCLE, circle, circle.  
Over and around until ends meet.  
I can make a circle, circle, circle.  
Round like a plate used when I eat.  
Round like a plate used when I eat.

I can make a ZIG ZAG, zig zag, zig zag.  
Straight lines with pointy bends and turns.  
I can make a zig zag, zig zag, zig zag.  
Looks like lightning that strikes and burns.  
Looks like lightning that strikes and burns.  
I can make a BIG CURVE, big curve, big curve.

Arching like a rainbow in the sky.  
I can make a big curve, big curve, big curve.  
Bent like bananas hanging high.  
Bent like bananas hanging high.

I can make it WAVY, wavy, wavy.  
Waves go up and down and up and down.  
I can make it wavy, wavy, wavy.  
Like a snake that slithers on the ground.  
Like a snake that slithers on the ground.

I can make a WIDE SPLAT, wide splat, wide splat.  
Like a rainy puddle in the street.  
I can make a wide splat, wide splat, wide splat.  
Like the silly Play Doh that I beat.  
Like the silly Play Doh that I beat.
